Product Specifications

Specification	Details
CAS No	144-55-8
HSN Code	-
Molecular Formula	NaHCO
Molecular Weight	84.01 g/mol
Packing Size	25 kg / 50 kg

Packing Type	Bag / Drum
Density	2.20 Gram per cubic centimeter(g/cm3)
Ash %	0.05% Max
Appearance	White Powder
Grade	Industrial Grade
Type	Anhydrous
Melting Point	50C (decomposes)
pH (1% Solution)	8.3
Solubility	Soluble in water
Odor	Odorless
Certificate of Analysis Available	Yes, on request
Application	Pharmaceuticals, Food Additives, Water Treatment, Industrial Cleaning
Purity	99% Min
Particle Size	Fine Powder (customizable)
Shelf Life	24 Months
Moisture (%)	0.10% Max
Other Names	Baking Soda, Sodium Hydrogen Carbonate, Bicarbonate of Soda
EINECS No	205-633-8
Reactivity	Reacts with acids to release CO
Conductivity	High in aqueous solution

Manufacturing process	Solvay Process
Storage Condition	Store in a cool, dry place
Toxicity	Non-toxic under normal conditions
